

## Legislation plugin installation instructions:

- 1) Navigate to Admin:Plugins, upload the zip file, and activate the plugin. *Note: If using WP Multisite, upload to the network plugins section and activate on the individual website.*
- 2) Navigate to Admin:Settings:Legislation and enter the Member ID and API Key. *Note: This settings page provides instructions and links for these:*

**Legislation Shortcodes**

API integration with Propublica Congressional Data API

Available shortcodes:

[votes] - A paginated view of the Member's voting record.  
[legislation] - A paginated view of the Member's legislative history.

Specify a member ID and API key below.

**Settings**

Member ID:

Member IDs can be found here: [Congressional Member Bioguide IDs](#)

API key:

Register for an API key here: [Propublica Congress API](#)

**Save Changes**

- 3) After saving the settings, paste the following shortcodes into any page post, or pagebuilder widget:
  - a. **[legislation]** – Provides an output of the member's legislative activity.
  - b. **[votes]** – Provides an output of the member's voting history.
- 4) Add custom styling: By default, the shortcode output is bare bones, without any CSS rules. You should use the custom CSS tools in WordPress or your preferred page builder to style these elements to match the look and feel of the website:
